HD Cooling Module

Powerful and efficient, the TL8 is engineered to provide excellent maneuverability, performance, and value. The heavy duty cross member, two-speed travel, and hydraulic self-leveling are standard equipment on the TL8. Operator controls include a multi-function display, hydraulic pilot controls, foot throttle, and a high back suspension seat. The TL8 provides ample space and comfort for your time on the job.

The TL8 offers a heavy duty rear door that swings out providing access to the high capacity cooling module while the tilt back cab / canopy provide access to the clustered engine oil filter, primary, and secondary fuel filters, pump group, control valve, and pilot line filter. Takeuchi quality and functionality ensures the TL8 will deliver many years of trouble free service in the most extreme conditions.

Spacious operator's platform with easy to reach controls and switches.
